

# GASOLINE TANKS GREATER THAN 1500 GALLONS

## Applicable Requirements and Compliance Certification Gasoline Tanks Located in the Ventura County Air Pollution Control District

Tanks meeting the following criteria:

- Tanks with a capacity of greater than 1500 gallons not used exclusively for wind machines

This form may be used in lieu of standard form “Part D – Compliance Certification.” If you choose to use this form, it must be accompanied by the “General Farming” form, and other equipment and operations forms as applicable. Refer to the attached Ventura County – Part D instructions for more information.

<b>1. Equipment Description:</b> Describe gasoline tanks.			
	Tank Designation	Capacity (gallons)	Aboveground or Underground
Example	West Tank One	2,000	Underground

2.			
3.			
4.			
5.			

<b>2. Applicable Requirement(s)</b> Applicable Rule number that the gasoline tanks must comply with.	<b>3. Compliance Determination Method</b> This is the primary method used to determine the tank is in compliance with the applicable requirement.	<b>4. Compliance Status</b> Please check the appropriate box, and if tanks have varying compliance status, then complete a separate form for each tank.
Rule 70, “Storage and Transfer of Gasoline”  <i>Tank must be equipped with permanently installed submerged fill pipe (defined in the rule), with a connection that is free of leaks. (70.B.1)</i>	1. I have knowledge that a submerged fill pipe has been permanently installed, <u>and</u>  2. The fill-pipe is maintained such that the discharge opening is entirely submerged when the liquid level is six inches above the bottom of the tank.	<input type="checkbox"/> in compliance with Rule 70.B.1 and I will continue to comply with all requirements.  <input type="checkbox"/> not in compliance with Rule 70.B.1 at this time, but I will be by: _____/_____/_____  If <u>not</u> in compliance, submit plan per instructions.

<p>Rule 70, “Storage and Transfer of Gasoline”</p> <p><i>All open vent pipes on gasoline tanks shall be equipped with a CARB certified pressure-vacuum relief valve. Unless otherwise specified in the applicable CARB executive order, pressure relief shall be set at <math>3.0 \pm 0.5</math> inches water column and vacuum relief shall be set at <math>8.0 \pm 2.0</math> inches water column. Vent pipes may be manifolded, pursuant to the applicable CARB executive order, to a single pressure-vacuum relief valve. Pressure-vacuum relief valve(s) shall be properly installed and maintained in good operating order. (70.B.6)</i></p>	<p>1. I have knowledge that a CARB certified pressure-vacuum relief valve has been installed <u>and</u></p> <p>2. I maintain the valve according to manufacturer’s specifications.</p>	<p><input type="checkbox"/> in compliance with Rule 70.B.6 and I will continue to comply with all requirements.</p> <p><input type="checkbox"/> not in compliance with Rule 70.B.6 at this time, but I will be by: _____/_____/_____</p> <p>If <u>not</u> in compliance, submit plan per instructions.</p>
<p>Rule 70, “Storage and Transfer of Gasoline”</p> <p><i>Tank shall be equipped with a permanently installed CARB certified Phase I vapor recovery system for use when transferring from a delivery vessel to the tank. (70.B.2)</i></p> <p>This requirement does not apply to stationary sources that have not exceeded a gasoline throughput of 6,000 gallons per year. (70.F.3.b)</p>	<p>1. I have knowledge that a CARB certified Phase I vapor recovery system has been installed <u>and</u></p> <p>2. I maintain the vapor recovery system according to manufacturer’s specifications.</p> <p>OR</p> <p>I am exempt from this requirement and I maintain gasoline throughput records and these records are maintained on the premises for a period of at least five years.</p>	<p><input type="checkbox"/> in compliance with Rule 70.B.2 and I will continue to comply with all requirements.</p> <p><input type="checkbox"/> not in compliance with Rule 70.B.2 at this time, but I will be by: _____/_____/_____</p> <p>If <u>not</u> in compliance, submit plan per instructions.</p> <p><input type="checkbox"/> Rule 70.B.2 does not apply as gasoline throughput is less than 6,000 gallons per year.</p>
<p>Rule 70, “Storage and Transfer of Gasoline”</p> <p><i>Tank shall be equipped with a permanently installed CARB certified Phase II vapor recovery system for use when dispensing fuel into a motor vehicle. (70.B.9)</i></p> <p>This requirement does not apply to equipment used exclusively for the transfer or storage of gasoline for equipment other than motor vehicles. (70.F.4.a)</p> <p>This requirement does not apply to stationary sources that have not exceeded a gasoline throughput of 24,000 gallons per year and have not exceeded a gasoline throughput of 10,000 gallons per rolling thirty day period. (70.F.4.b)</p>	<p>1. I have knowledge that a CARB certified Phase II vapor recovery system has been installed <u>and</u></p> <p>2. I maintain the vapor recovery system according to manufacturer’s specifications.</p> <p>OR</p> <p>I am exempt from this requirement and I maintain gasoline throughput records and these records are maintained on the premises for a period of at least five years.</p>	<p><input type="checkbox"/> in compliance with Rule 70.B.9 and I will continue to comply with all requirements.</p> <p><input type="checkbox"/> not in compliance with Rule 70.B.9 at this time, but I will be by: _____/_____/_____</p> <p>If <u>not</u> in compliance, submit plan per instructions.</p> <p><input type="checkbox"/> Rule 70.B.9 does not apply as equipment is not used to fuel motor vehicles.</p> <p><input type="checkbox"/> Rule 70.B.9 does not apply as gasoline throughput is less than 24,000 gallons per year and less than 10,000 gallons per rolling thirty day period.</p>
